

# Ground School – CPL Course (with IF)

## CL-CPL

### Course Overview

This course will provide you with the ground training and exams that you require to obtain credits for all the **Commercial Pilot Licence (CPL) Theoretical Subjects** required. This course is identical to the knowledge training required for an **Instrument Flight (IF)** rating. (If only an IF rating is required, a certain subject do not apply. Similarly, a CPL WITHOUT an IF rating also do not require certain knowledge training – Refer to Training Plan below)

### Enrolment Requirements

- Must have a valid PPL licence

### Training Plan

- 198 Hours of Classroom Lectures on the following eight theory subjects:
  - Meteorology
  - Flight Planning
  - Radio Aids
  - Navigation
  - Air law and Procedures (Procedures only in case of a CPL with IF rating)
  - Instruments
  - Human Performance
  - Aircraft Technical and General (Not required if only an IF rating is needed)
- CAA conducted exams for all 8 theoretical subjects (75% pass mark)

### Course Duration

This course covers all eight subjects, typically over a nine week period and is conducted several times a year. (Refer to our website at [www.simflight.co.za](http://www.simflight.co.za) for the latest course dates) The student will also be required to do home studying prior to presenting him/herself for the exam.

Note: Although you may rewrite each exam multiple times (after a prescribed waiting period) you may also be required to attend remedial classes before you will be allowed to rewrite after a failed exam. CAA requires all subjects to be passed within 18 month from passing the first subject.

### Study Material Required

We use the AVEX Study Notes for the CPL ground lectures. (The manuals can be purchased from SFA Pilot Shop or from AVEX directly)
